

INLINE SEDIMENT FILTERS

SpiroPure Inline Sediment Filters offer top-grade polypropylene filter media to provide you with better tasting water for your refrigerator, ice maker, reverse osmosis system, coffee maker, water cooler, and more. We offer the inline filters in different connection options, including 1/4" FNPT, 3/8" QC, or 1/4" QC connections.

- Made with 25 micron polypropylene filter media to effectively reduce dirt, sand, and other sediment particles from your water.
- 2" x 10" cartridge lasts up to 1,500 gallons, with recommended replacement every 6-12 months depending upon water quality and usage.
- Offered in a 1/4" FNPT, 3/8" Quick-Connect, or 1/4" Quick-Connect to meet your inline filtration needs.

FILTER DETAILS CHART

Model Number	Micron Rating	Size	Connection	Temperature Rating
SP-IS105	25 micron	10" x 2"	1/4" FNPT Inlet/Outlet	39°F - 125°F (4°C - 52°C)
