

4-STAGE QUICK TWIST REVERSE OSMOSIS FILTER SYSTEM

SpiroPure Quick Twist reverse osmosis systems provide 4 stages of filtration for quick and easy access to cleaner, purer water right in your home. Quick Twist cartridges make filter replacement simple for faster RO system maintenance. The system includes everything you need for a successful under sink installation, including the option to have no faucet or to choose from 5 different stylish finishes.

- Advanced 4-stage filtration includes sediment, carbon block, reverse osmosis, and post carbon block filtration in one undersink system.
- Quick Twist cartridges allow for quick removal and replacement of cartridges; simply pull down and turn to the left to remove, and push up and turn right to install
- Our system includes enough filters for one-year of filtration, providing two sediment, two carbon block, one reverse osmosis, and one post carbon block filter cartridge
- The included check valve, also known as a flow restrictor, controls the flow of the water and prevents water from spurting out of the system during cartridge changes without the need to shut off the water supply
- The RO manifold of the system includes a recessed handle in the back, allowing for easy removal of the system from under the sink if needed
- SpiroPure's Quick Twist RO system is an IAPMO NSF 58 certified under sink filter system with a temperature rating of 34°F to 100°F (1°C - 38°C) and a pressure rating of 40 to 80 psi (If the water pressure exceeds 80 psi, a pressure limiting valve will need to be installed)

FILTER DETAILS CHART

Model Number	Faucet Finish	Number of Stages	Temperature Rating	Replacement Filter Set
SP-RO200QT	No Faucet	4	34°F - 100°F (1°C - 38°C)	SP-RO225
SP-RO200QT-AB	Antique Bronze	4	34°F - 100°F (1°C - 38°C)	SP-RO225
SP-RO200QT-BK	Matte Black	4	34°F - 100°F (1°C - 38°C)	SP-RO225
SP-RO200QT-CM	Polished Chrome	4	34°F - 100°F (1°C - 38°C)	SP-RO225
SP-RO200QT-GD	Brushed Gold	4	34°F - 100°F (1°C - 38°C)	SP-RO225
SP-RO200QT-NK	Brushed Nickel	4	34°F - 100°F (1°C - 38°C)	SP-RO225
