

ADVANCED MULTI-STAGE WHOLE HOUSE WATER FILTER SYSTEMS

SpiroPure whole house filter systems offer water filtration for your entire home, with sediment, carbon, and salt-free descaler cartridges. The system arrives fully assembled and ready to install, while the pressure relief button and included housing filter wrench make filter replacement quick and easy. Also available in a 2-stage, sediment and carbon filtration system option.

- The pressure relief button and included filter wrench makes filter cartridge replacement and maintenance quick and easy. The cartridges give up to 12 months of filtration for city or well water, for use with cold water only
- Arrives fully assembled and ready for install. Package includes: two or three 20 BB filter housings, 20x4.5 sediment cartridge, 20x4.5 catalytic carbon cartridge, 20x4.5 descaler cartridge (SP-WH300 only), filter wrench, metal mounting bracket, and teflon tape
- System has a flow rate of 4-8 gpm and a max operating pressure of 90 psi

FILTER STAGES

- **Stage 1:** A dual gradient, polypropylene sediment filter effectively reduces dirt and sediment with a high flow rate and dirt holding capacity
- **Stage 2:** German-made catalytic carbon filter media utilizes highly ionized catalytic coconut shell GAC carbon to reduce chloramines, heavy metals, and other contaminants more effectively than other carbon filters
- **Stage 3 (SP-WH300 only):** German-made salt-free descaler technology prevents scale buildup on plumbing pipes, appliances, and fixtures without the mess and hassle of salts for a more environmentally friendly, easier water softening experience

FILTER DETAILS CHART

Model Number	Number of Stages	Filtration Types	Inlet/Outlet	Temperature Rating	Maximum Pressure	Replacement Filter Set
SP-WH300	3	Sediment, Carbon, Descaler	1/4" NPT	39°F - 125°F (4°C - 52°C)	90 psi (6.20 bar)	SP-WH325
SP-WH200	2	Sediment, Carbon	1/4" NPT	39°F - 125°F (4°C - 52°C)	90 psi (6.20 bar)	SP-WH225

CONTAMINANT REDUCTION

- Arsenate
- Arsenide
- Bad taste & odor
- Chloramine
- Chlorine
- Chromium
- Cyanide
- Fluoride
- Heavy metals
- Hydrogen sulfide (sulfur odor)
- Lead
- Mercury
- Organics
- Phenols & p-nitro phenol
- Scale buildup (SP-WH300 only)
- Sediment
- Selenium
- Tannins and lignin
- Trihalomethanes (THMs)
